Subject: Student participation in SWAYAM course on Designing Digital Solution

With reference to email received from aicte.admin@aicte-india.org dated 14th January 2019 Regarding Student participation in SWAYAM course on Designing Digital Solution. MHRD Innovation Cell has created a online course on SWAYAM portal, which is open for all students who want to learn about Designing Digital Solutions.

About The Course

The Designing Digital Solution course is created by eminent experts from Industry and Academic Institutes for students who intend to understand 'how to convert a prospective idea into a structured digital solution'. The focus of the course is to primarily identify an idea and conceptualize a digital solution for the same using modern tools and techniques. The course covers sessions from planning the project, identifying feasible ideas, designing and developing an optimum solution. Sessions on presentation skills, IPR and Patents are also included for learners.

The course may also help students who participate in frequently organized events on entrepreneurship and Innovation such as Smart India Hackathon 2019. Further, the course is free of cost and students will receive participation certificates.

For further information/clarification students can meet undersigned

Dr. Namita Mishra

Head, Students' Welfare, TIAS

Cc:

- 1. Director, TIAS for information**
- 2. HoDs MBA, MCA BBA & BA (J&MC) Department for Compliance**
